

Going back to school social story

I can now go back to school. This is great!

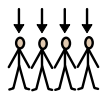

I can get back into my school routine. I can wake up early,

get ready with my school uniform, brush my teeth and eat

breakfast. And then go to school.

Everyone will be pleased to see me. It will be a happy time!

I can do activities and learning that I enjoy at school.

I can have some fun and be safe! The teachers and my

adults will look after me.

At school, things may be different. Some of the children in

my class and some of the teachers may still be at home. I

may be going to school on different days, in a different

room and doing different learning. This is ok.

I can look at my timetable to help me understand what is

happening each day. I will try to remember to give people

personal space and to wash my hands.

I can talk to a teacher if I am beginning to feel angry,

worried or upset.
